

# MyiLibrary® 'Search & View' Website

Junho 2010

ingram **digital**

# Página Inicial

The screenshot shows the homepage of the MyiLibrary e-book platform. At the top, there is a navigation bar with links for HOME, RESOURCES, MY ACCOUNT, and LOGOUT. The main content area is divided into several sections. On the left, there is a 'Quick Search' section with a search bar and a 'Full Text' dropdown menu. Below this is a 'Browse by Publisher' section with three dropdown menus labeled 'A - G', 'H - O', and 'P - Z'. Further down is a 'Get an Account' section with a brief description and a 'Create an account now' link. At the bottom left is a 'Demo' section with a brief description and a 'Watch it now' link. On the right, there is a 'Content' section with a 'Browse all e-books' link and a 'Browse by Subject' section. The 'Browse by Subject' section lists various subjects with 'SEE ALL' links. At the bottom right, there are links for 'Trial Registration', 'Privacy Policy', and 'Terms and Conditions'. Annotations with red arrows point to specific elements: one points to the 'Browse all e-books' link, another points to the 'Privacy Policy' link, and a third points to the 'Create an account now' link.

**Edition:** 1st Edition  
**BIC:** YG - Reference  
**Dewey:** 636.7089  
**Readership Level:** general  
**Description:** Dogs may be man's best friend, but women actually account for 86 percent of owner attendance at dog training schools throughout the United States. There are a slew of training books on the market that promise techniques to train your dog to sit, heel, and fetch, but none discuss the fundamental needs, concerns, questions, and problems women have with their dogs. Research has proven that women have more difficulty controlling their dogs than do men. Women must also think about specific issues and have more reasons for getting a dog, i.e., protection, companionship, playmate for the kids. She must now think more seriously about which dogs are better to leave home all day while she is at work or which one requires a large amount of supervision. Single women who live alone in small spaces, must think first about the comfort and health of the dog they want and consider which breed is trained easily and happy in smaller spaces.; Babette also covers stopping behavior that is only done to women: eating underwear, crotch sniffing, biting on the behind, excessive barking, jumping, nudging, leash breaking, door crashing, and dragged by leash (other training books do not cover these embarrassing actions). It is important that women, being more likely to ask for help with their dog, have their specific needs and challenges addressed. Woman's Best Friend will be the first book to speak to women from the most-prestigious female dog trainer out there. Topics include: Aggression, Choosing a family dog, Preparing and Training for a new baby, Living in apartments or small spaces, Considering women's lifestyles and the appropriate breed, Equipment useful to women that women don't know about, New commands that work for women (for instance, "stay" doesn't work for most women). Safety issues, First aid tips, including what to do when your dog is hurt and is bigger than you, Professional training and group information, and two Special Sections: In-depth look at the personalities of the best dogs for women and for those women looking to attract romance, Babette lists what types of people certain breeds attract.

Sporting Dogs

Note:

Sporting dogs tend to be the most popular with families and children. They are active dogs that are gregarious and sweet by nature. Happy working or playing with children, they are a great group of dogs.

The screenshot displays the Ingram Digital Demo Library interface. At the top, the header reads "ingram digital Demo Library" with a background image of a library building. Below the header, a navigation bar contains links: "HOME", "RESOURCES", "HELP", "MY ACCOUNT", and "LOGOUT". A sub-header states "Your One Stop Shop for e-Books".

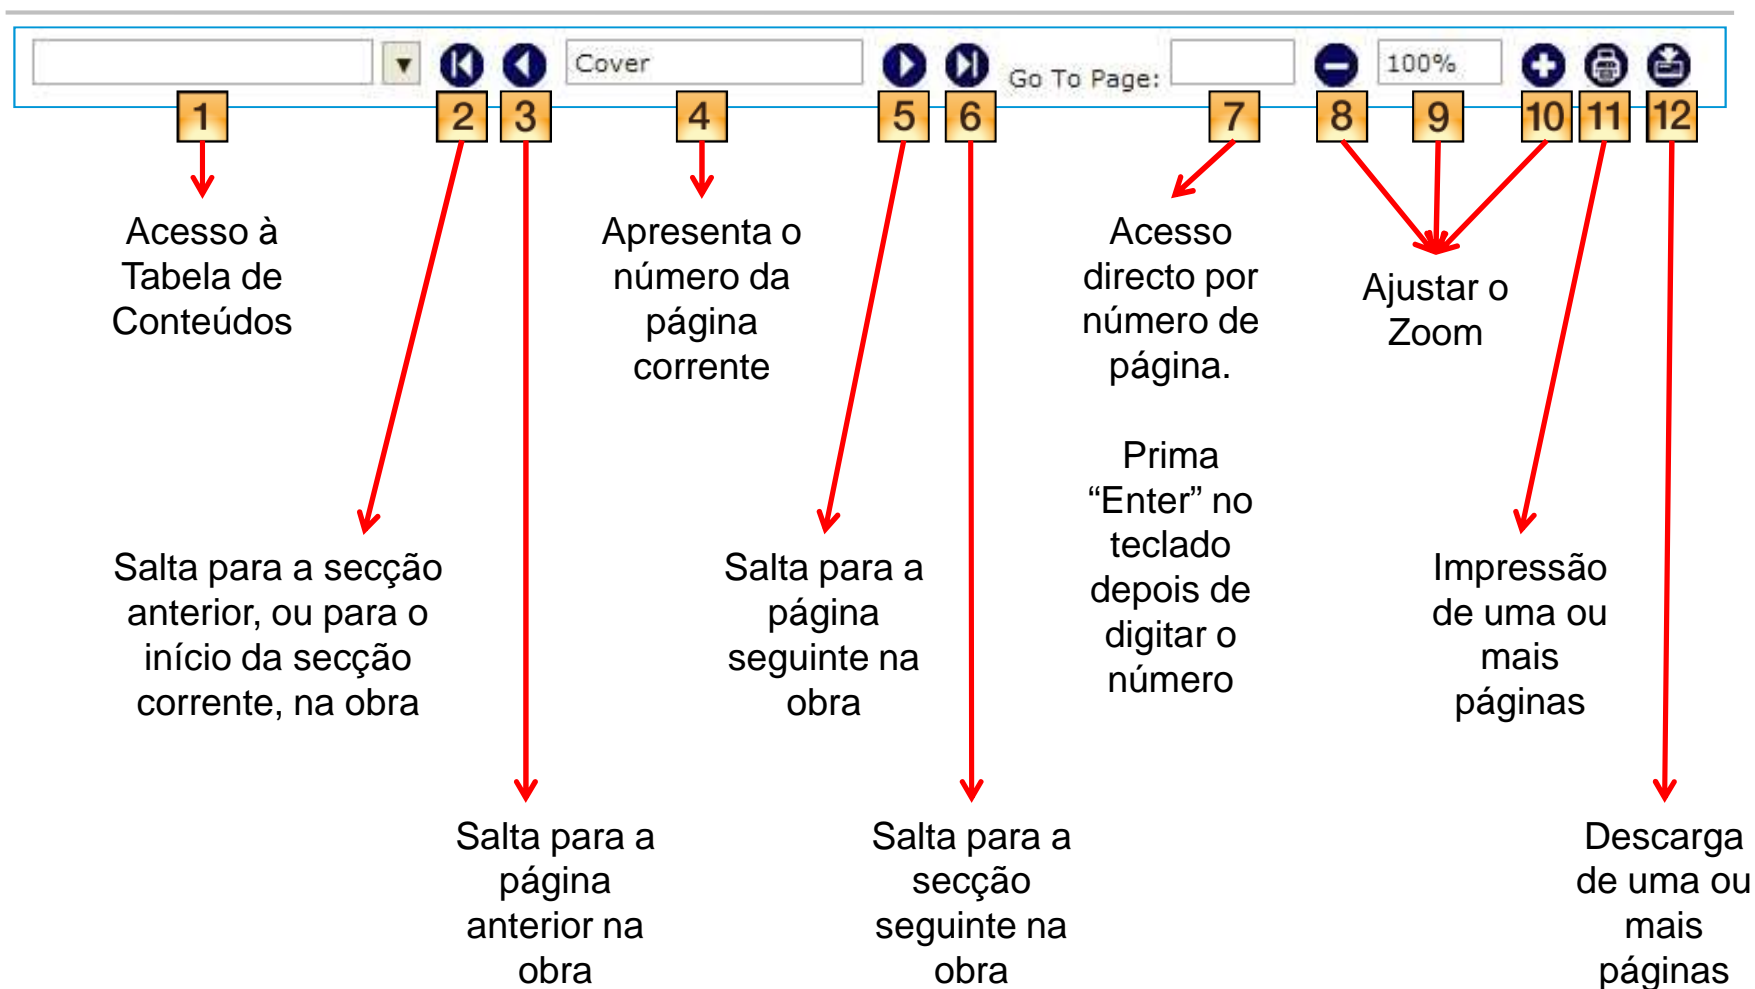

On the left side, there is a "HIDE MENU" button and a list of categories: "Bibliographic Details", "Notes", and "Viewer Tools". Below these are buttons for "TOC", "Search", and "Ref Tools". A scrollable list of resources includes: "Acronyms and abbreviations", "Bibliographic sources", "Biography", "Converters", "Dictionaries", "Directories", "Encyclopedias", "Government", "Health", "Law", "Maps", "News", "Statistics", "Thesauri", and "Weather".

The main content area features a large book cover viewer. The top cover is titled "Woman's" and shows a woman in a purple dress. Below it is another cover titled "Choosing and Training the Dog That's Right for You" by Babette Haggerty-Brennan, showing a dog. A blue arrow points from the top cover to the bottom cover.

Overlaid on the viewer is a central navigation bar with the following elements from left to right: a dropdown menu, navigation arrows (back, forward), a text input field containing "Cover", navigation arrows (play, stop), a "Go To Page:" label, a text input field, a zoom slider set to "100%", and icons for zoom in, zoom out, print, and download.

At the bottom of the interface, a footer contains the copyright notice: "© Ingram Digital Ltd., All rights reserved. MyLibrary® is a registered trademark in the U.S. and other countries." and links to "Privacy Policy" and "Terms and Conditions".

5. The life and death of a home

Initially discovered during an archaeological survey in 1991 (Moody, 1992), the Atkinson Site (McCurry, 2002; see also Kohn, this volume) was excavated from 1998 to 2002 as a mitigation measure for the future development of the property. The fieldwork eventually revealed an arrangement of five structures, a variety of fence lines and ditches, and several sub-surface pits (Figure 5-1). Deposits across the entire site were heavily sampled for macro- and microscopic archaeological and archaeological remains.

What are e-books?  
E-books are electronic versions of printed books. E-books can be viewed online from any PC connected to the Internet, or in some cases, downloaded to a PC or portable device. You can browse e-books for quick research and reference or read them at your leisure.

What is MyLibrary?  
MyLibrary is an electronic platform that offers library users access to some of the most topical and current e-books available today. Users can access a wide range of research, reference and reading materials online from any location. Users can search across many e-books or conduct searches within a particular e-book.

What e-books are available on MyLibrary?  
MyLibrary partners with many of the world's leading publishers making their titles available on our platform.

Please explain the different 'Quick Search' methods.  
There are several different ways to search using the 'Quick Search' box:  
• To search the entire text of an e-book for a single word or a phrase, use the default 'Full Text' search option. This option searches the entire text to find a match on any of the words entered. To find a match on the exact search phrase entered, use quotes (") around the phrase to limit the results to that phrase only.  
• To search the metadata of an e-book, use the 'Keywords' search option. This option searches all of the metadata (including the title) to find a match on any of the words entered. To find a match on the exact search phrase entered, use quotes (") around the phrase to limit the results to that phrase only.  
• To match on a specific e-book, use the 'Title' or 'EAN/ISBN' search option. The 'Title' option searches titles to find a match on any of the search terms entered. The 'EAN/ISBN' option searches EANs/ISBNs to find a match on the EAN/ISBN. To find a match on the exact title entered, use quotes (") around the title to limit the results to that title only.  
• To find a specific author, use the 'Author' search option. You can find matches by first, middle or last name or any combination of these names. This option searches all authors to find a match on any of the names entered. To find a match on an exact author, use quotes (") around the name to limit the results to that author only.  
• To find a specific publisher, use the 'Publisher' search option. This option searches the publisher names to find a match on any of the words entered. To find a match on an exact publisher, use quotes (") around the publisher name to limit the results to that publisher only.

What is 'EAN / ISBN'?  
Basically, this is the unique product code which is found on the bar code label. The International Standard Book Number (ISBN) is a 10-digit number that uniquely identifies books and book-like products published internationally. Beginning on January 1, 2007, ISBNs have converted from 10 digits to 13 digits. This was done to increase the availability of ISBNs in certain areas of the world. New ISBNs are 13 digits and use the same format as EANs, which are assigned to all products available for retail sale worldwide. You will continue to use references to ISBNs as the industry transitions to EAN.

There are particular e-books and publishers that I would like to see on the platform, but you don't have the e-books or publishers. Can you get them for me?  
Yes, you can suggest e-book or publisher requests online [here](#). This request is sent directly to MyLibrary. We will work to contact the associated publisher and to obtain the content for you.

I need to download anything to read your e-books?  
No, users do not need to download any type of 'reader'. However, they do need to have Adobe Acrobat Reader (free) and an Internet connection.

Can more than one person at a time access an e-book?  
Yes. Multiple users can view and search an e-book at the same time thanks to our concurrent user model.

Do e-books provide less or more information than their print counterparts?  
In most cases, MyLibrary e-books are an exact duplication of the printed book, and our digital files are optimized for each of the different formats (HTML or PDF).

Is all of your content in English or do you have any other languages?  
Currently, 98% of MyLibrary content is in English language or multilingual, with the remaining 2% comprised of Dutch, French, German, Italian and Spanish titles. We continue to build our multilingual offerings.

Why can't I save a copy of entire e-books?  
Publishers and copyright owners determine how much of any particular e-book can be copied or printed. Your e-book may also be displayed page by page, therefore you will not be able to save the entire e-book in one go.

Can I print chapters, sections or pages I want to use for my research?  
You may print chapters, sections or pages within the copyright restrictions of the title.

When I try to download e-book pages, my computer doesn't appear to work or an error message appears stating that your Internet browser will not allow downloads. How do I download pages?  
This is likely related to your Internet browser security settings. If you are using Internet Explorer, please use the following path to locate this particular setting: Tools -> Internet Options -> Security. Once on the 'Security' page, highlight the 'Internet' zone and select 'Custom level'. Scroll down to the 'Downloads' section and Enable the 'File download' option. You may have to restart your Internet browser so that these changes take effect.

If new research becomes available or the e-book is revised, will the e-book be automatically updated?  
No, e-book editions are published in the same way as new editions of printed books.

Are there pictures in the e-books? What about maps, charts and tables?  
In most MyLibrary e-books, all original illustrations, graphs and tables are included. However, in some instances publishers may not have electronic rights to all of the illustrative material in the print edition, and that material is not included in the electronic edition. MyLibrary renders e-books as they are provided by the publisher. Most publishers, if they have had to remove illustrations in respect of copyright, place a note in the text to that effect. Some publishers, taking advantage of the flexibility of digital media, include additional material and functionality in the electronic versions of their publications.

How do I reference e-books in any essays or dissertations that I write?  
You can use the citation button once you have opened the e-book to show you all the different reference methods available.

What level of technical support/customer care can MyLibrary offer?  
We ensure that all your queries are accorded the highest priority. Our [help desk](#) aims to answer all questions within 24 hours.
